

The **HealthcareSource eLearning LibrarySM** transforms learning by providing readily-available online resources to meet your pressing educational needs. Comprising **more than 5,500 courses** and **over 2,500 continuing education credits**, the eLearning Library is an efficient, effective way to deliver clinical and non-clinical content to your learners, at times that best meet their demanding schedules.

Seamless Delivery of Courses

All courses undergo rigorous compatibility and reliability testing prior to implementation in HealthcareSource NetLearning®.

No Added Fees for Updating Licensed Courses

Our content team ensures you have access to the latest course updates.

Built-In Competency Exams

Learners can self-assess as they go to identify areas of strength and opportunities for growth.

Increase Efficiency

Online catalog accessible through NetLearning.

Content Management

View all licensed courseware, remaining course licenses available, and dates they expire.

Curated Catalog

We conduct primary research for content best suitable for our customers.

REMEDY eLEARNING

HealthcareSource Courseware Partner

Remedy eLearning, a trusted learning partner of HealthcareSource, optimizes the professional development of medical staff by targeting the knowledge competencies needed to support and deliver high-quality, efficient, team-based care.

Remedy eLearning courses help staff overcome knowledge competency gaps through role-based, situational training and evaluation. Upskill and maximize the contributions of your clinical and non-clinical team members by equipping them with the educational concepts and best practices essential to perform competently in today's healthcare environment.
